

Python Practice Questions (100)

1. Print first n natural numbers
2. Print natural numbers in reverse
3. Print first n even numbers
4. Print first n odd numbers
5. Print sum of first n natural numbers
6. Print square of first n numbers
7. Print cube of first n numbers
8. Print table of a number
9. Print numbers divisible by 3 up to n
10. Print numbers divisible by both 3 and 5
11. Count digits in a number
12. Reverse a number
13. Check palindrome number
14. Find sum of digits
15. Find product of digits
16. Find largest digit in a number
17. Find smallest digit in a number
18. Print numbers from n to 1 skipping 2 numbers
19. Print all numbers between a and b
20. Print even numbers between a and b
21. Count even numbers from 1 to n
22. Count odd numbers from 1 to n
23. Print sum of even numbers till n
24. Print sum of odd numbers till n
25. Count even/odd between 1–100
26. Count even/odd between 1000–2000
27. Print all odd numbers divisible by 5
28. Check if number is even or odd
29. Print first n multiples of 7
30. Print numbers not divisible by 2
31. Print alternate even numbers
32. Print alternate odd numbers
33. Print sum of numbers divisible by 3
34. Count numbers divisible by 7
35. Print numbers divisible by both 2 and 3
36. Print numbers divisible by 2 but not 3

37. Print numbers divisible by 3 but not 2
38. Count numbers divisible by 5
39. Print numbers divisible by 10
40. Find average of numbers from 1 to n
41. Find factorial of n
42. Print factorial series till n
43. Print sum of factorials till n
44. Print Fibonacci series till n
45. Print sum of Fibonacci numbers
46. Print first n terms of Fibonacci
47. Check if number is prime
48. Print all primes till n
49. Count prime numbers till n
50. Print sum of primes till n
51. Print multiplication series (like 2,4,8,16...)
52. Print power of number (n^x using loop)
53. Print sum of squares
54. Print sum of cubes
55. Print harmonic series
56. Print geometric progression
57. Print arithmetic progression
58. Print sum of AP
59. Print sum of GP
60. Print factorial using while loop
61. Print numbers in increasing pattern
62. Print numbers in decreasing pattern
63. Print triangle of numbers
64. Print inverted triangle
65. Print pyramid pattern
66. Print number square pattern
67. Print right-angle triangle
68. Print Floyd's triangle
69. Print Pascal triangle (basic logic)
70. Print star pattern using loops
71. Print odd number triangle
72. Print even number triangle
73. Print reverse number triangle
74. Print hollow square pattern

75. Print diamond pattern
76. Check Armstrong number
77. Print Armstrong numbers till n
78. Check perfect number
79. Print perfect numbers till n
80. Check strong number
81. Print strong numbers till n
82. Find GCD of two numbers
83. Find LCM of two numbers
84. Check leap year
85. Print all leap years in range
86. Find largest of three numbers
87. Find smallest of three numbers
88. Swap two numbers without temp
89. Swap two numbers with temp
90. Check number is positive/negative/zero
91. Print sum of digits until single digit
92. Print digital root
93. Count frequency of digits
94. Print unique digits
95. Print duplicate digits
96. Find second largest digit
97. Find second smallest digit
98. Check number is binary or not
99. Convert decimal to binary
100. Convert binary to decimal
